Wireless – Guest Access

1. Under your network settings on your device, please choose CALUGUEST ssid as your WI-FI option.

2. Once connected, please open a web browser where you will see an initial registration page:

(image)

3. Choose the link for Guest Self Registration. Once the page loads, please fill in all required fields.

Click the Request Guest Access button once complete.

4. A text message & email will be sent to your cell phone with your password. Your username is the email
address that you used in Step 3.

5. Once the webpage refreshes, please enter your username and password, then click Login. Your
password is case sensitive.

6. You will see a progress bar. Once it is finished you will get a message stating your network is connected.
Click OK then close and reopen your web browser.

Note: Any Windows you have open in your browser will close during this process.

7. You are now on the Guest Wireless Network!
